Software Architect (f/m/x)

Location: Salzburg, Austria or Full Remote in Austria

Employment: Full-time

Pimcore is the world's leading platform for digital data management and digital experiences. Already more than 100,000 companies in 56 countries and over 140 solution partners worldwide rely on the Pimcore platform. In the age of digital transformation, Pimcore is an absolute game-changer when it comes to aggregating, managing, and omnichannel delivery of digital data in any form or volume. Starting from our Mission Control Center in the most beautiful city of all - the Mozart city of Salzburg, Austria - we venture into new data & experience universes every day with on-site but also full remote Pimconauts all over the world.

Would you like to shape the technical future of our products as an integral member of our agile development team and bring Pimcore platform to the next level? You love engaging with other, sometimes even crazy, tech enthusiasts internally and in the global community to provide an outstanding experience & data management platform on a global scale?

Then **Pimcore** is the damn right place for you.

RESPONSIBILITIES

As a Software Architect at Pimcore you will ...

- define the high-level technical and functional architecture of Pimcore, including its open source and commercial extensions
- ensure the software meets all requirements of significant aspects such as quality, performance, resilience, extensibility, scalability and security
- provide technical guidance and coaching to your developer colleagues in the design and implementation
- develop the most critical components of the system or design a blueprint for a solution
- work on improving and extending coding standards and testing solutions
- oversee the development progress to ensure consistency by reviewing code and make suggestions about alternatives and best practices
- plan and estimate new issues & features together with your colleagues for adequate planning of development sprints and new releases
- collaborate with product managers to determine new requirements and features and work on their specifications with attention to the technology stack
- be a package owner for several packages and take technical responsibility for these packages including architecture, issue management and priorities
- be a team player, work closely with the team and get things done together
- become an active member of our open source community

REQUIREMENTS

- Master or Bachelor's degree in Information Technology, Computer Science or related
- At least 5-7 years of experience in software development including comprehensive proven experience in software / application design, architecture and quality assurance
- Proven working experience with our Pimcore Software/Platform
- Profound knowledge in software development patterns and best practices
- The ability to work well in a team with high quality organizational and leadership skills as **playing captain**
- Attention to best practices, quality and detail, and a personal drive to deliver great results
- Excellent English skills
- A valid work permit for Austria is a prerequisite for this position (Non-EU citizens: please attach the work permit to the application).

YOU CAN INSPIRE US WITH

- Existing, proven experience as Software Architect or Tech Lead in former positions
- Team Lead experience
- Working experience with our current technologies (PHP & Symfony Framework, ExtJS, React & Redux, MySQL, Elastic & Redis, Linux, Lamp/Lemp-stacks, Docker & container orchestration, Github)
- Attention to best practices, quality and detail, and a personal drive to deliver great results

YOU CAN LOOK FORWARD TO

- Having a significant impact on the further development of a globally leading software platform - **leave a footprint!**
- A great and unique, crazy team conquering together the MarTech world
- Most flexible working hours and up to 100% home office option for every Pimconaut. Work when and where you are most productive
- Dedicated personal & professional development budget for fostering your personal growth
- 1 extra vacation day for every year as a Pimconaut - the longer you stay in the Pimcoverse, the more vacation days you get
- Options for sabbaticals and workations
- Bonus payments based on company wide goals
- Documentation and daily communication in English - if everyone at a table or call speaks german, of course, we exchange ideas in german
- A cool office in Salzburg at the Gusswerk area, good public accessibility, and enough parking spaces to easily touch down and hang out at our mothership!

But there is even more - information about us Pimconauts, our beliefs and attitudes and many other benefits can be found at https://www.pimcore/en/careers

For this position we offer a starting salary of EUR 70,000 gross/year with the potential to earn more, depending on your qualifications and experience.

If this sounds like you, we are really looking forward to receiving your application!
